

30th Annual Diabetes Directors Seminar

Friday May 11th, 2018

Sandman City Centre Hotel

180 W Georgia Street

COURSE OBJECTIVES

Upon completion of the program, participants will be able to:

1. Demonstrate sufficient knowledge to effectively communicate the progress of novel diabetes medical research with their patients.
2. Understand the clinical applications of new diabetes technologies and medications.
3. Increase confidence in managing specific diabetes complications and patient subgroups.

COURSE DESCRIPTION

This course will provide current and critical information pertaining to the treatment and care of diabetes to individuals primarily responsible for the management of diabetes within their own groups and communities.
