**COURSE OBJECTIVES**

Upon completion of the program, participants will be able to:

1. Identify at least one key endocrine clinical solution, learning point or next step in therapy for each topic and patient scenario presented.
2. Be able to demonstrate updated knowledge of new concepts for diagnosis and treatment guidelines for endocrine problems encountered in office practice.
3. Describe how they may employ these new guidelines, clinical skills, techniques and treatment options for improving their patients’ care.

**COURSE FACULTY**

**Dr. Adam White**, MD, FRCPC, Clinical Assistant Professor, Division of Endocrinology, University of British Columbia

**Dr. Remi Rabasa-Lhoret**, MD, FRCPC, PhD, Associate Professor, Department of Nutrition, University of Montreal; Adjunct Professor, Department of Experimental Medicine, McGill University
