

20TH ANNUAL

---

# BC ENDOCRINE DAY

---

May 7th 2021 | 8 AM | Virtual Event

# COURSE DESCRIPTION

---

This full-day lecture series offers an interactive case-based review of common endocrine problems encountered in clinical office practice. Open to general practitioners, internists, specialists, trainees, and allied health professionals. A variety of endocrine health topics will be reviewed, such as thyroid, pituitary, diabetes, gonads, bones, lipids, pediatric endocrinology, and other endocrine disorders.

## COURSE OBJECTIVES

---

Upon completion of the program, participants will be able to:

- 1) Describe at least one key endocrine clinical solution, learning point or next step in therapy for each topic presented.
- 2) Be able to demonstrate updated knowledge of new concepts and technology for diagnosis and treatment for endocrine patients encountered in office practice.
- 3) Outline how you may employ these new clinical skills, technology & treatment options for improving your patient's care.
